

- Seamlessly integrated GitHub Actions for continuous integration, automating build and test phases.
- Ensured infrastructure reliability by implementing automated testing for Terraform modules using Terratest.

CampusEats: Canteen Food Ordering System | *MERN Stack, MongoDB* | [GitHub](#) | [Live Project](#)

- Developed a full-stack web application to digitize canteen operations, featuring real-time order tracking and menu management.
- Implemented secure JWT-based authentication and role-based access control for students and administrators.
- Designed and optimized RESTful APIs and MongoDB queries to reduce data retrieval latency during peak hours.
- Deployed the frontend on Vercel, providing a seamless and responsive user interface for mobile and desktop users.

TECHNICAL SKILLS

Languages: Python, Java, C, HTML5, CSS3, JavaScript, TypeScript

Frameworks: React.js, Node.js, Express.js

DevOps & Security: Terraform, Docker, Kubernetes, GitHub Actions, Argo CD, Trivy, tfsec, Terratest

Cloud & Databases: AWS, MongoDB, MySQL

Developer Tools: Git, VS Code, Postman, Bruno, Vercel, Render

Soft Skills: Leadership, Decision Making

ACHIEVEMENTS

Secured **1st Prize** in IEEE Vibe Coding Event among 50+ teams in an inter-college competition

POSITIONS OF RESPONSIBILITY

Core Member, Food Court Committee

2023 – Present

Silicon University

House Captain, School Leadership Council

2019 – 2021

St. Xavier's High School
